TALK SOUND REPUBLICANISM

To More Than 3,000 Persons-The Banner Meeting of the Year-Synapsia of the Speeches.

"Julius Julius Clesar Clesar Burrows!" was the yell prepared by the young republicans of the city with which to greet that distinguished states man and orator last evening. It was with wildest circers and waving of thousands of flags that he was greeted as he entered the singe of Hartman's hall Wet, wind and mist could not tion days. suppress republican enthusiasmi last night. There were evidences of it at every turn. At 7:30 seats were at a premium and the aisles and spaces in the rear of the hall were beginning to fill. The great majority were republicans but there were many democrats scattered through the audience. The crowd had fairly settled itself when the man that would wish to wipe out one Young Men's Espublican club and the McKinley club, 150 strong, marched in each carrying a flag of silk. A red-white-and-blue parasol formed up in the center of the club. Some of the members carried ton norms and at given signals a thin squeaty horn would alternate with the baseo profundo of a miniature fog The club made it interesting for the tremendous crowd for a haif bour with horn blowing and campaign yells. Some of these yells were intensely amusing and placed the audience in good humor T. D. Gilbert to Preside.

S. G. Ketcham called the meeting to order and called the T. D. Gilbert to preside. Mr. Gilbert said it was an honor to preside over 3,000 patriotic citizens who had turned out to hear the issues of the day d scussed. He made a few preliminary remarks and called on the Schubert club for a campaign song. After the song and the tumult had subsided Mr. Gubert introduced Senator Stockbridge. who said: "I always take pleasure in visiting your city. I always make it my duty to visit you in a campaign and make a talk, while I bring along my friend, Mr. Burrows, to make the

"The first duty of any country is to furnish a sound currency. The question of a good safe, sound currency comes home to the heart of every man, woman and child in the land. In 1859, just before the republican party took possession of this country, we were bankrupt. This government paid 12 per cent for money to pay its debt. When the republican party took hold of the reins of the government we had the war to put down, which cost mil-

The Banking System.

The wise men of the party started the banking system which has fur-nished toe best currency possessed by any country in the world. At the close of the war the debt of the pation was \$4,000,000,000. Today it is between \$800,000,000 and \$900,000,000. In the meantime the government has erected public buildings when needed and improved our harbors and highways. Toparty and the people's party propose to give us in exchange? They propose to remove the 10 per cent tax on state banks, the very tax placed on them by the republican party to crowd them out of existence. He showed some old state bank bills, and said every one of those worthless pieces of paper cost some hard workingman his hard labor or the products of his labor. "Now, if you wish to go back to that kind of money, just vote for one of those two

Gold and Sliver Coinage. When the mints of this country were established, it was decided to com both gold and silver, but it was also decided to make them of intrinsic value. At that time the ratio of the intrinsic value of gold to silver was one to fifteen. Later, owing to the large products of silver, the values separated and it took exteen grains of silver to equal in value one gram of gold. Now it takes twenty-three grains of silver to equal one grain of gold. Now the democrats wish the free and unlimited | comage of silver. You cannot circulate a cheap money with a good metal dol-iar. If silver were comed in ununited amounts, the gold dollars would go up n value and the silver would go down. It would reduce the purchasing power of a dollar about 30 per cent. The man that had saved for years in the savings bank would have to take money from the bank that is worth about two thirds as much as the money he placed in the bank.

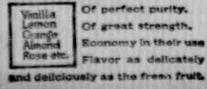

Southern War Claims,

I wish to speak of one more matter and that is the large number of southern war claims on the congressional calendar ready for action when gress meets next term. None of those oil's were reached during the last congress. Perhaps the democratic brethren thought it was not safe to pass any of them just before a presidential cam-But the election will soon be past and the fear of the indignation of the people of the north will not trouble nograts. There is every reason to believe that those claims will be paid. If you wish to see them paid, vote the democratic ticket. If you do not, vote the republican ticket from top to bottom. I will take no more of your time."

Longessman Burenes' Speech, The Schubert club gave another selection and Mr. Gilbert introduced the Hom. J. C. Burrows, who spoke as fol-"We have reached a crisis in our in-

dustrial affairs, and in the brief hour the laboring men will do it. And they amount even up that he would be REPUBLICAN NOM N THORES. you will listen to me. If I shall have explained the danger that threatens us lenal be satisfied. A change of party means a change of public policy. Therefore, before any man casts his vote next Tuesday he should fully con-sider waether or not he wishes to see a

change in public policy in the admin-istration of this government.

Emploid Harrison is a sober, high-minded citizen. All the virtues of ac-unsulted life characterize him. He took an oath to support the constitution of the United States and to exe-cute the laws. All this has been done and peace and prosperity reigned throughout the land. Can anybody criticise our foreign affairs. I say it not in a spirit of criticism, but the foreign policy of Grover Cleveland was weak, cowardly and vascilating. The foreign fishery question was left unsettled by the Cleveland administration. It has been settled by the Harmson administration. Grover Cleveland does not understand fishing except on Decora-

They Oppose the Party. My friends and encines will say they do not oppose Benjamin Harrison. The campaign has been free of slander. The democrats say they do not oppose Mr. Harrison, but the party behind him. My friends, way do you opp se the republican party? What have we done that is wrong! Where is there a law placed on the statute books by the republican party? You say the republican party taxes the people. There never was a party that did not. It costs something to run a government for 60,000,000 people. To ent democratic congress hastaxed it for large sums. The democrats talk of the billion dollar congress. If the innocent school boy were asked about the billion dollar congress he would ask, which one? Now, gentlemen, I will be fair with you, but you were not with us. Yours, too, was a tellion dollar congress, but you did not appropriate more than was necessary to run this government. They talked about making paupers millionaires, etc. That is good enough for a man that has nothing to say. If there is a democrat here that can tell us how to run this government without expense, we will elect your president.

How to Kaise Revenue.

Now, how are we going to raise the \$500,000,000,000 needed for the government? There are two ways, by direct and indirect taxation. There is not a person here who pays a cent of direct tax for the support of the government of the United States. Somebody will ask how shall we get this money? We will tax other people for the support of our government. I presume the older people will understand what tariff is, but I will explain it to the younger ones. Mr. Burrows here explained what a tariff by a simple illustration of the importation of glass. He said it is a tax for the privilege of selling foreign manufacturers in our markets. We say to the foreigners, you are our enemy in war and not very friendly to us in time of peace and you must pay for the use of our market. We managed to pick loose change from the port of Portland, Me., to the Pacific slope to the amount of \$240,000,000. By the income from the tax on tobacco, whisky and from postoffices and from the protective tariff we shall raise this \$500,000,000,000.000. The democrats claim they want a tariff for revenue only, but we want a tariff for protection and revenue. What is a revenue taxation? I will explain. Put a tax on coffee, tea our credit is the best of any nation duced in this country. This is the earth. What does the democratic kind of tariff adopted by Great Britain, the kind for which the democratic party clamors.

Free Trade Fallacy. Roger Mills the chief of the free trade idea, says we propose to lower the duty until our whole revenue is collected from non-competing articles. I say let all those things which cannot be produced in the United States come you can. But on those articles that can be produced at home, place enough tariff to measure the difference between European labor and American Between the European hovel and the American hovel. The democratic leaders met in Chicago this year and among other things they appointed a committee to go and disc ver if it could what the demo-

cratic platform should say. They were out all night." He then read from their reports of the committee and explained how all the old time low tariff planks were stricken out and the convention by a vote of 201 voted to adopt a free trade platform. The politicians have led the party to a point where you good democrats either come out for free trade or leave the party. A g od many of them are leaving. He was surprised that a party within twenty-five years after the rebellion should come out and invite the American people to stand on a platform which has a plank in it exactly like a me of the articles of the Dishman, who has been imistaken for an confederate constitution. The south Irishman and an Italian and a 14 year-governs this country. Its labor costs old newsboy were seated on rickety ss in the south than here. Down in Georgia vou may see a gang of twentyfive men chained together working under a guard, with a pack of blood hounds issued to a tree to capture any he is coming here to teach you about the condition of labor. How can we compete with such conditions? Now the democrats would not injure a single industry. On, no. It the democrats get control of the government the fires in your factories would not Business will go on just the same, my friends; they will go right on if you will agree to take lower wages. Democratic Misrepresentation.

The democrats tell you the tariff is a tax, and they will eay that word fax as if it weighed a ton. Let me see, I conceded that it is a tax. I have shown that you do not pay one cent toward the support of the government directly. Iron't you want to pay a little? Now, if you do pay a few cents more for some articles? It is a wise way to raise a revenue. If the price is a little nigher you do not realize it, and the money must be raised. If you take the tax directly, there would be a nowl; but you do not realize you are adding to the support of the govern-ment. What would you do? Don't you wish to chip in a little once in a while to aid in the support of the government? There was a time when there was not a steel rail made in the United States. We placed a tariff f \$28 per ton on steel rails, and now there are 300,000 laborers engaged in the industry of making steel rails. The price was \$150 per ton, and the tariff should have raised it to \$178, according to the theory of Grover Cleveland, but did it go up? No. It fell to \$150, \$140, \$150, \$60, \$50, \$27. That is the price today. There are men working in that industry today and striking for higher wag sat that. When we had a tariff for revenue only, soup houses were opened to keep the laboring man from starvation. That is what the demo-

will do it because they have been mis- elected. led by designing politicians who are working to satisfy their personal amagain place in the White house Benjamin Harrison, that peerless patriot and statesman. Let us tear down the black flag of free trade and lift aloft the republican banner and on it write Protection to American Manufactures add Labor,' and place it in the hands of our great leader and follow it to

MR. MARVIN CONFIDENT,

victory.

He Believes Everything Is Coming Democracy's Way Tais Fall.

Frederick Marvin, democratic caudidate for state treasurer, and Henry Russell, attorney for the Michigan Central ranifold, are at the Morton. Mr. Marvin came over from Detroit "on politics," and Mr. Knaseli to see about some ranroad matters. Mr. Marvin has not seen Don M. Dickinson for some time, but be has a stock of rain-bow hopes on hand that would make a devout Musselman discouraged by comparison. Mr. Marvin brought out some of his gorgeous progno-neations yesterday. Among other things he expects the democratic ticket to spring out of Wayne county u der the imp-tus of from 8,500 to 10,000 majority. This majority will act as a sort of a leaven and will leaven the whole lump of Michigan. Mr. Marvin isn't at all confident. He merely believes that the democrats of this state will elect the whole state ticket, seven electors, six congressmen, and will have a majority in both houses of the legislature. This is all the democracy Michigan wishes in this election, but of course it is willing to accept any-Marvin says he has been with Judge Morse, and says the democratic nomines will surely be elected.

The best meetings of the year are being held in the smaller towns," said Mr. Marvin. "I think that indicates a full vote, and I prophesy success for the entire democratic ticket."

Ex-Speaker Reed at Des Moines DES MOINES, Ia., Nov. 2 .- The closing and biggest republican raily of the campaign in this city was held today. Thomas B. Reed and John A. Kasson were the lions of the occasion. Mr. Reed arrived from Dubtique morning and together with Mr. Kasson and Congressman Holl of this district held a reception at the Savory hotel curing the forenoon. In the afternoon Major Hoyt Sherman pre-sided at a meeting at the Grand opera house which was addressed by Mr. Reed, J. A. T. Hull, and Judge Marcus Kavanaugh of Chicago. This evening meetings were held at the opera house and in the Y. M. C. A. auditorium. Messrs Reed and Kasson spoke to large and enthusiastic audiences.

Hurrah Politics in Kansas. Lincoln, Neb., Nov. 2.—The capital of Nebraska was thoroughly in possession of the people's party today. The occasion was a reception to General Weaver and Mrs. Lease, who made speeches. In the afternoon in spite of the fact that the mud in the streets was shoe-mouth deep, a parade was made in which 1,500 men participated. Many delegations from other were in line accompanied by bands; 1,200 men were mounted. A number of floats were in the procession and created great cheering. The speaking was in a large ball which was packed. Mrs. Lease left this evening to resume campaign work in Kansas.

Prohibitionists Will Vote for Weaver. WATERTOWN, S. D., Nov. 2 .- The refusal of the republican secretary of state to place the names of the prohibition candidates on the official state ballot, because of some alleged irregularity, is reacting upon the republican party in a sensational manner. M. D. Alexander, the prohibition candidate for governor, announces that he will vote for the populist ticket and has written a letter to all prohibitionists to Other bets were as follows: 2 to 1 take the same course. There are 4,500 seems certain that Weaver, with the populist-democratic-prohibition votes, will carry the state.

Ohio Claimed by Republicans. Columbus, O., Nov. 2.—Chairman Dick of the republican state executive committee, when asked tonight for his estimate of the probable result in Ohio next Tuesday, said: "The indications are that the total vote will reach 900,-000, and if the returns that are considered at these headquarters hold good. the republican plurality will not be less than 25,000, and in no event will it fall below that of last year, when Major McKinley was elected by 21,500."

Democrats Didn't Buy. DES MOINES, Iowa, Nov. 2 .- A story

was published here this morning charging that the State Temperance alliance committee, and that the unusual activity of the third party prohibitionists this year was due to the money re-ceived from this source. All the parties whose names were used as being directly or otherwise concerned in the sell-out have been seen today and brand the report as unqualifiedly false.
